Visegrad University Association

„Future scientists for sustainable development” 3rd VUA YOUTH scientific session

23 November 2016

Szent István University, Faculty of Economics and Social Sciences, Gödöllő, Hungary

CALL FOR PAPERS

Dear Colleagues and Students,

It is a great honour for me to invite you to the **annual scientific conference organized for bachelor, master and PhD students** to be held at the **Faculty of Economics and Social Sciences of the Szent István University, Gödöllő, Hungary under the auspices of the *Visegrad University Association***, which takes a special role in promoting the professional career of doctoral students by organizing the Visegrad Doctoral Symposium every other year and in encouraging undergraduate students to take part in the work of VUA YOUTH. The **aim of this conference** is to provide a forum for the **bachelor, master as well as doctoral students of VUA institutions** to present their research results at the conference and to have a publication in a conference proceeding with ISBN. Professors and lecturers from VUA institutions will constitute the scientific committee whose role will be to give guidelines to the students regarding the continuation of their researches. This conference also provides platform for young researchers not only from the CEE region to meet their counterparts and build new professional relationships.

IMPORTANT DEADLINES:

14 October 2016 registration form and abstract submission (via e-mail)

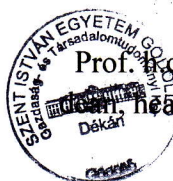

4 November 2016 20-25 pages of full paper submission (via e-mail, according to the template)

Costs:

The conference is **free of charge**. The Faculty of Economics and Social Sciences of the Szent István University covers the *editing and printing costs of the conference proceeding, the organizational costs, the rent of premises, as well as the buffets during the conference*. The organizers provide the necessary technical equipment in the session. Participants are asked to prepare a 10-minute ppt presentation about the aims, hypotheses, results, conclusions and recommendations of their research.

I hope that this event will be the first momentum in the long-term development of VUA YOUTH and can be organized regularly in the future.

Hope to see you in Gödöllő at the conference,

Prof. Dr. József Káposzta
head of scientific committee

Gödöllő, 25 August 2016
