ASSUMPTIONS

The efficiency of using the basic production factor, namely land is one of the most important problems that determines the opportunities of agribusiness development. Changes in land resources and modifications of law concerning the possibilities of land turnover are among fundamental determinants of economic situation of farms and allow to indicate the development of agriculture and shape of agrarian policy.

*I kindly invite you to participate in the conference
dr hab. Mirosław Wasilewski, prof. SGGW*

CONFERENCE TOPICS

1. Legal regulations impact on turnover of land resources
2. Land use efficiency
3. Regional differentiation of profitability of land management
4. Agricultural land market - present economic outlook and its perspectives
5. Financing of agricultural land market
6. Evolution of agrarian policy in Poland and the European Union
